FLEXSHELF STORAGE
PRODUCT GUIDE

Guide to the various configurations of the Flexshelf Storage System

MODULAR
FLEXSHELF

Flexshelf is a modular storage system designed to create the highest density of storage with the smallest footprint. In most cases, converting from a traditional "tubs on shelves" storage to flexshelf can either halve your footprint or double your storage-capacity, and significantly increase organisation and potential compliance issues.

ALUMINIUM
Flexshelf is made from aircraft grade anodised aluminium. No rust and no powder- coating to chip off. Just long lasting aluminium

MODULAR
Connect multiple bay configurations to create the most suitable storage solution for the department's needs. If needs change in the future, just disconnect and reconfigure

DENSITY
The Modular basket system offers significant increases in storage density when compared with typical open shelving and compactus setups. Minimal space is lost between baskets, creating very high density storage in a smaller footprint

DIVIDE
Dividers for baskets makes creating individual locations for individual products easy and clear.

LABEL
Coloured label system to easily locate products based on category or speciality

TOOL-LESS
Tool-less position adjustment for baskets and shelves, providing continuous refinement

INFECTION
Infection control compliant Aluminium, ABS Plastic and stainless steel. Easy to clean and completely non-porous

ACCESS
Standard baskets pull out giving full access to all product. Option for angled top basket for easy access for all staff regardless of height

TELESCOPIC
Upgrade option for baskets using 35kg soft-close telescopic runners for heavier items such as fluid bags and nutrient feed, reducing risk of manual handling injury

---

MODULAR
FLEXSHELF

Flexshelf is completely modular, meaning that expanding an existing Flexshelf system is as simple as joining on an extra bay. This also means that if an installed Flexshelf set of bays needs to be relocated to a new space, they can be separated and reconfigured to suite the new space, greatly extending service-life and further reducing replacement costs
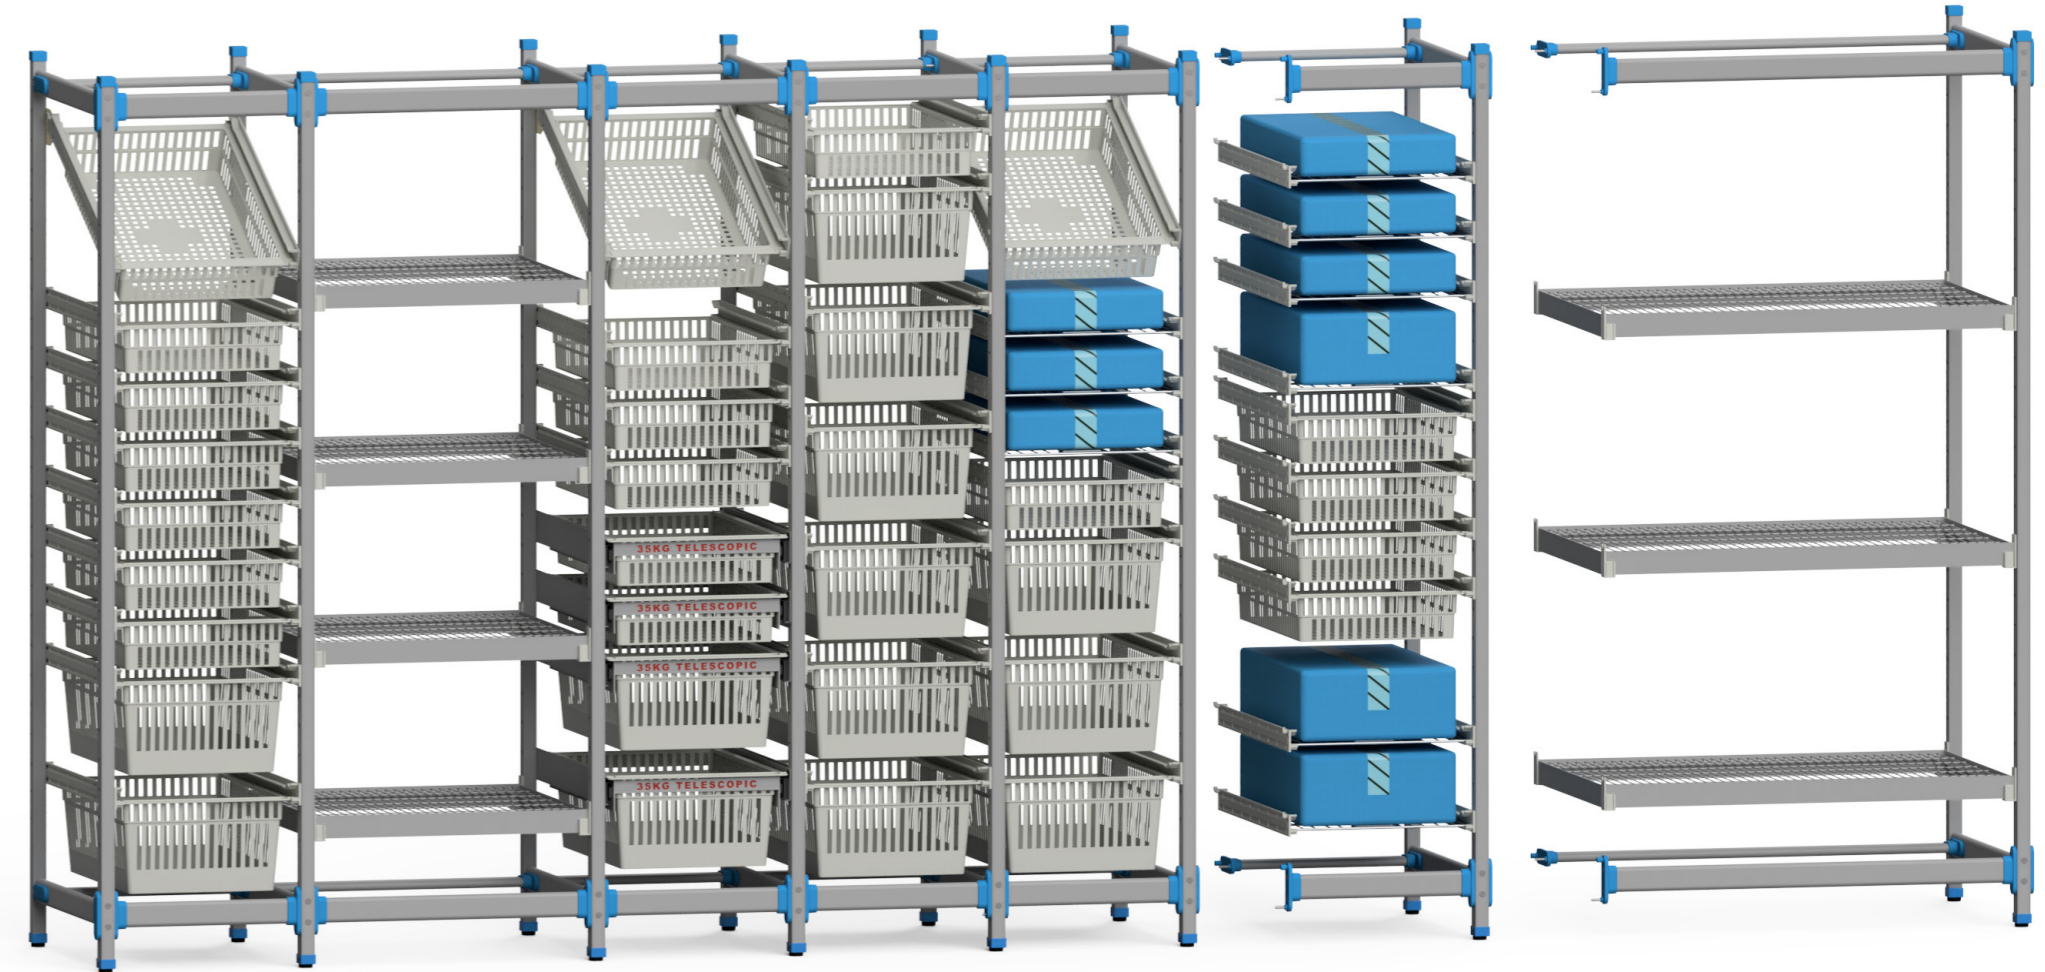

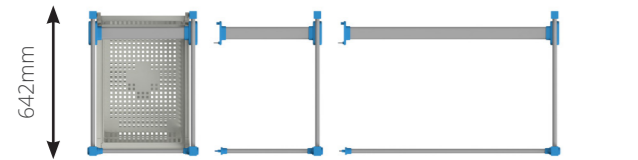

ORIENTATION
SYSTEM "A" OR "B"

Flexshelf is based around the ISO standard for modular baskets, being 600x400mm. Flexshelf comes in 2 orientations, known as "System A" and "System B".
In System A, the framework is orientated so that the depth of each bay is 642mm, and the baskets are accessed from their shorter side.
In System B, the framework is orientated so that the depth of each bay is 442mm, and the baskets are accessed from their longer side.
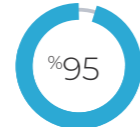

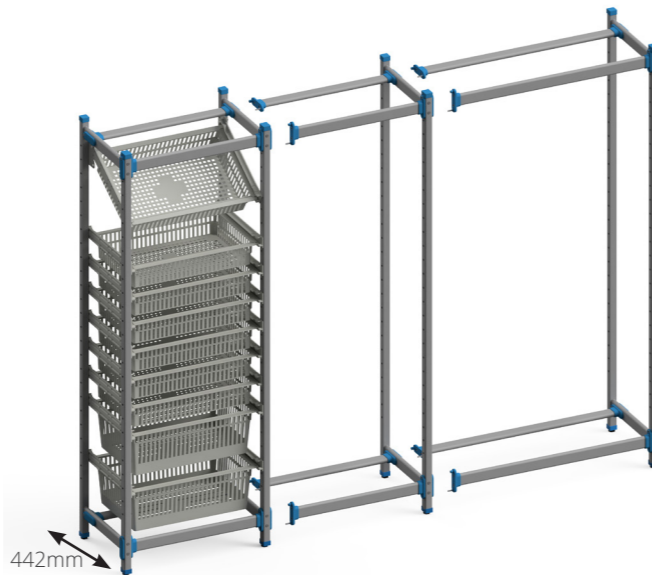

A SYSTEM A

Based around the 642mm deep orientation

642mm

642mm

%95

95% of installations
are "System A"

B SYSTEM B

Based around the 442mm deep orientation

442mm

442mm

Quick Tip

Though not used often for full height installations, System B is ideal for short mobile workstations/carts which we get into later on page 48

WHY "SYSTEM A" OVER "SYSTEM B"?

Why are 95% of our installations using the System A over System B? It comes down to efficient use of space.
Take the below example, a 3m wall with FlexShelf bays setup with the same amount of baskets in each.
With System A, we fit 6 bays across the 3m wall, whereas with System B only fit 4 bays. Yes, system A extends further into the room, however it gives an increase of of 40% more storage capacity for the same amount of wall space

- 5 x 10cm ABS Baskets flat
- 4 x 20cm ABS Baskets

A1940-400-310/520

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 3 x 10cm ABS Baskets flat
- 5 x 20cm ABS Baskets

A1940-400-110/620

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 10cm ABS Baskets flat
- 6 x 20cm ABS Baskets

A1940-400-175/210

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 16 x 5cm ABS Trays flat
- 2 x 10cm ABS Baskets

A1940-400-135/410

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 12 x 5cm ABS Trays flat
- 4 x 10cm ABS Baskets

A1940-400-135/220

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 12 x 5cm ABS Trays flat
- 2 x 20cm ABS Baskets

Quick Tip
These 3 options are ideal for storing documents and forms. The 5cm trays can hold 2 stacks of A4 sheets each, meaning in 1 bay you could keep 34 different forms ready and easy for staff to access.
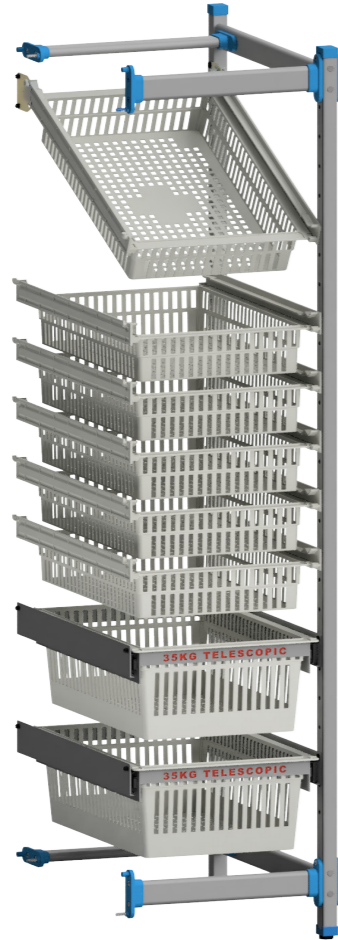

A1940-400-810/120F

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 7 x 10cm ABS Baskets flat
- 1 x 20cm ABS Basket **35kg Telescopic**
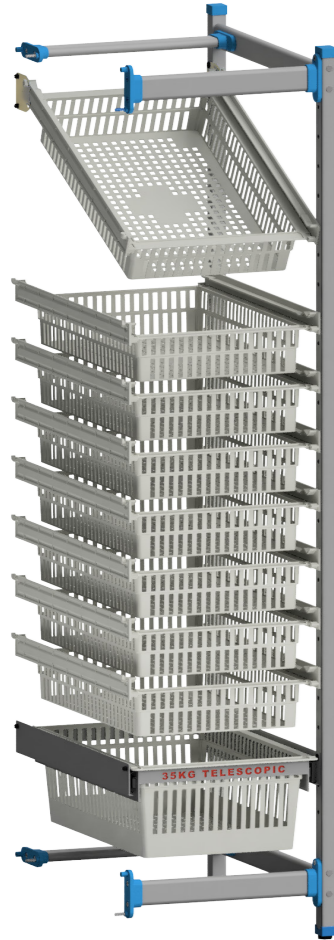

A1940-400-610/220F

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 5 x 10cm ABS Baskets flat
- 2 x 20cm ABS Basket **35kg Telescopic**

A1940-400-410/320F

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 3 x 10cm ABS Baskets flat
- 3 x 20cm ABS Basket **35kg Telescopic**

A1940-400-210/420F

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 1 x 10cm ABS Baskets flat
- 4 x 20cm ABS Basket **35kg Telescopic**

Quick Tip
35KG telescopic basket runners are ideal for storing heavier items like IV fluid bags. The telescopic runners fully extend to give 100% access without the need for staff to support the weight of the basket

## A1940-400-11SS

FlexShelf "System A1940" 400w
- 443W 642D 1940H Aluminium Frame
- 11 x SteriShelves

Quick Tip
These SteriShelf Bays are ideal for storing Wrapped instrument sets without stacking them on top of one another. Each instrument set has its own shelf, allowing appropriate airflow and making each set easy to access

CSSD / THEATRES
INSTRUMENTS

COMPLY

Comply with Sterile Instrument storage requirements by the reducing the need to stack individual sets on top of each other. Provide each instrument set with their own space and adequate airflow on a smooth stainless steel mesh shelf.

ORGANISE

Split up your Sterile Store into the different specialities and store required instrument sets, consumables and steripeel instruments together, using a combination of shelves and baskets.

FUTURE PROOF

If you are considering a transition from wrapped instrument sets to aluminium containers, flexshelf is suitable for both, ensuring longevity and reducing changeover costs

A1940-856-3SH/410/420

FlexShelf "System A1940" 840w

VISUAL
3D RENDERS

Ortek can offer basic rendered models of your space to help visualize the final layout*

This 3D render was created to help convey the storage density of Flexshelf vs the currently used chrome wire open shelving in a Main Theatre Store. It was also beneficial for the end user to see how the proposed layout would improve their work flow and decrease congestion.

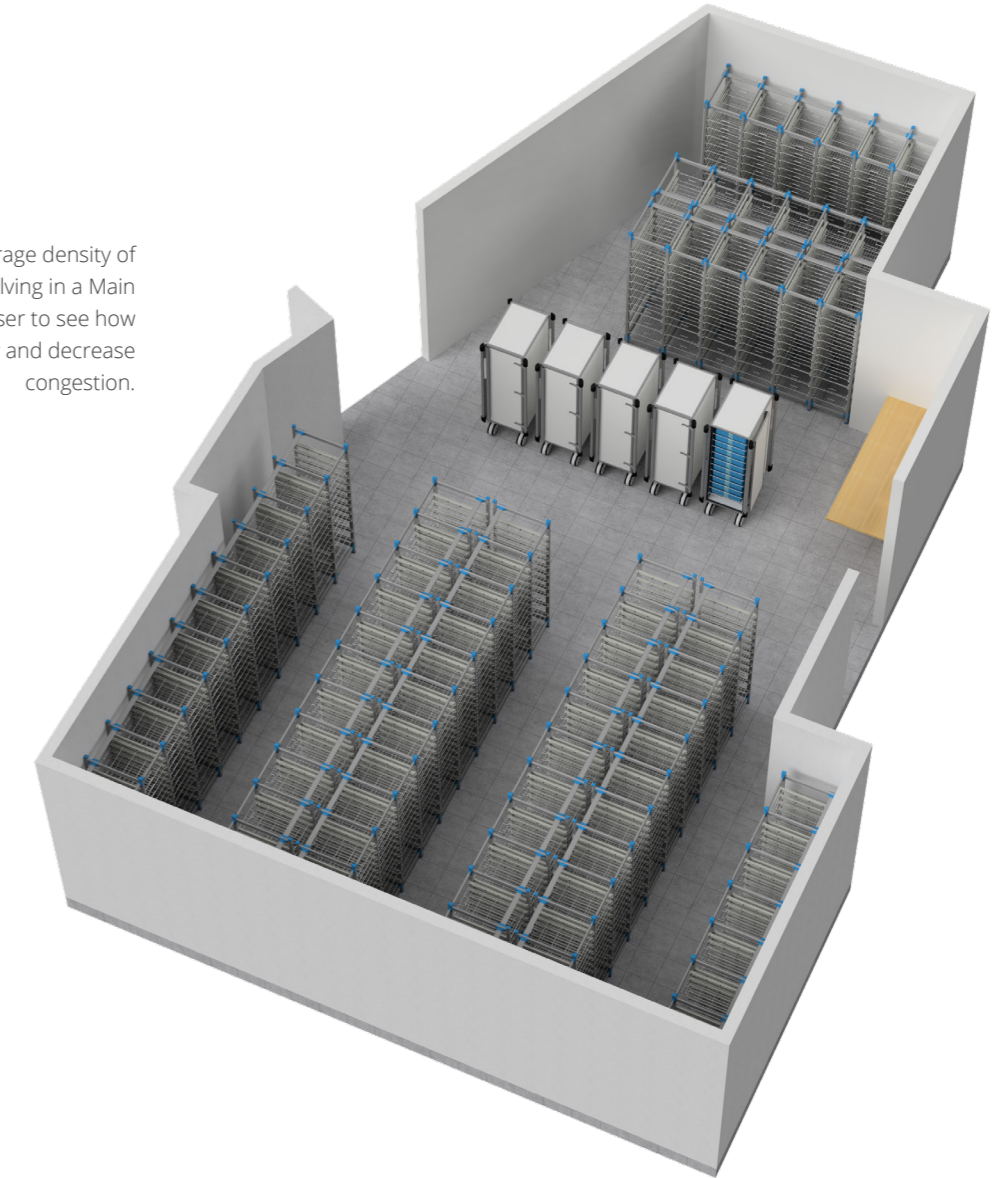

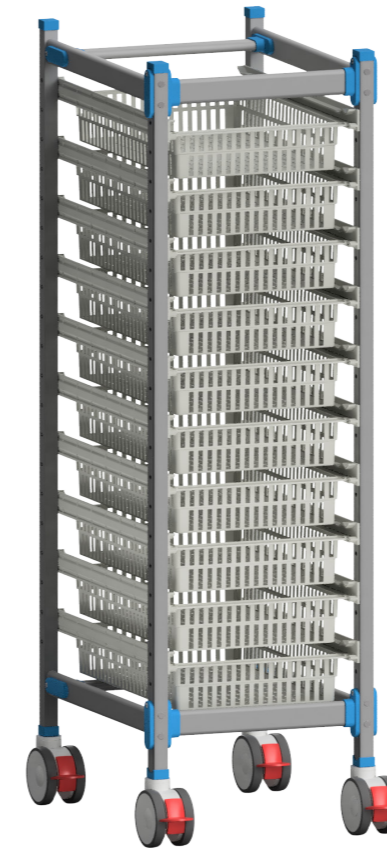

*3D renders available on a case by case basis

- 643W 442D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 17 x 5cm ABS Tray flat
- 2 x 10cm ABS Baskets

B1940-600-145/410

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 13 x 5cm ABS Tray flat
- 4 x 10cm ABS Baskets

B1940-600-145/220

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 5cm ABS Tray Angled
- 13 x 5cm ABS Tray flat
- 2 x 20cm ABS Baskets

Quick Tip
These 3 options are ideal for storing documents and forms. The 5cm trays can hold 2 stacks of A4 sheets each, meaning in 1 bay you could keep 34 different forms ready and easy for staff to access.
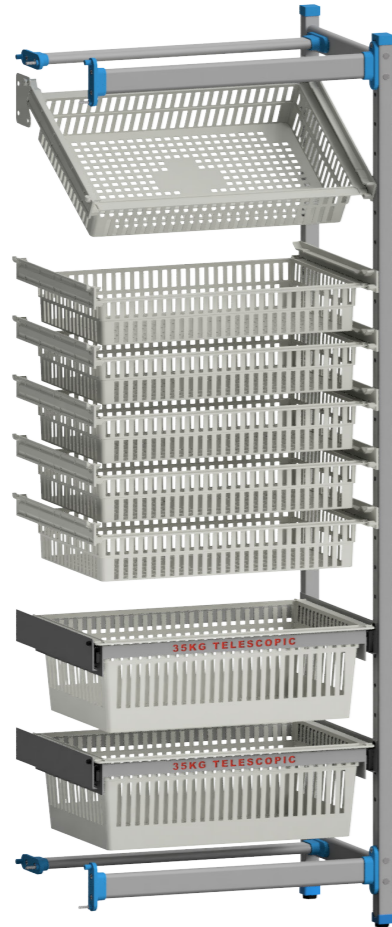

B1940-600-810/120F

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 7 x 10cm ABS Baskets flat
- 1 x 20cm ABS Basket **35kg Telescopic**

B1940-600-610/220F

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 5 x 10cm ABS Baskets flat
- 2 x 20cm ABS Basket **35kg Telescopic**

B1940-600-410/320F

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 3 x 10cm ABS Baskets flat
- 3 x 20cm ABS Basket **35kg Telescopic**

B1940-600-410/210F/220F

FlexShelf "System B1940" 600w
- 643W 442D 1940H Aluminium Frame
- 1 x 10cm ABS Basket Angled
- 3 x 10cm ABS Baskets flat
- 2 x 10cm ABS Basket **35kg Telescopic**
- 2 x 20cm ABS Basket **35kg Telescopic**

Quick Tip
35KG telescopic basket runners are ideal for storing heavier items like IV fluid bags. The telescopic runners fully extend to give 100% access without the need for staff to support the weight of the basket

B1940-900-3SH

FlexShelf "System B1940" 900w
- 943W 442D 1940H Aluminium Frame

FlexShelf "System B1940" 900w
- 943W 442D 1940H Aluminium Frame
- 5 x 900x400mm Stainless Mesh Shelves (80kg)

PHARMACY / MEDICATIONS
SYSTEM "B"

The Following pages contain Pharmacy storage units based around the System "B" orientation

PHARMACY / MEDICATIONS
FLEXFLOW

ANGLED TRAYS
5cm deep trays on a 20° angle to allow stock to slide to the front. This angle also provides a clearer visual for average-height staff

TELESCOPIC
Upgrade option for baskets using 35kg soft-close telescopic runners for heavier items such as fluid bags and nutrient feed, reducing risk of manual handling injury

STOCK ROTATION
Pick from the front and replenish to the back.
Trays pull forward to allow new stock to be placed at the back. Reduce the amount of product expiring before use by always picking from the front and using the oldest first

MULTI-PURPOSE
Ideal for multi function spaces requiring pharmacy products and heavy fluid products, such as medication rooms and clean utilities.

CLEAR OR SOLID
Baskets and trays available in Clear Polycarbonate, or grey ABS Plastic.

SLIDING DIVIDERS
Sliding dividers used to create "lanes" which can easily adjust to the width of the product.
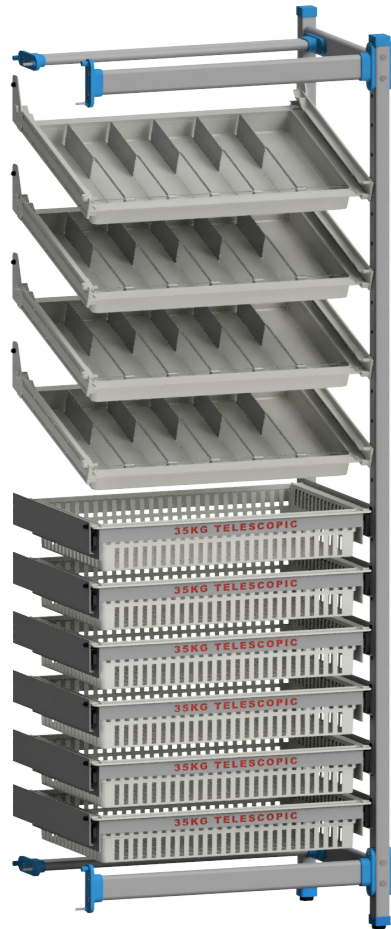

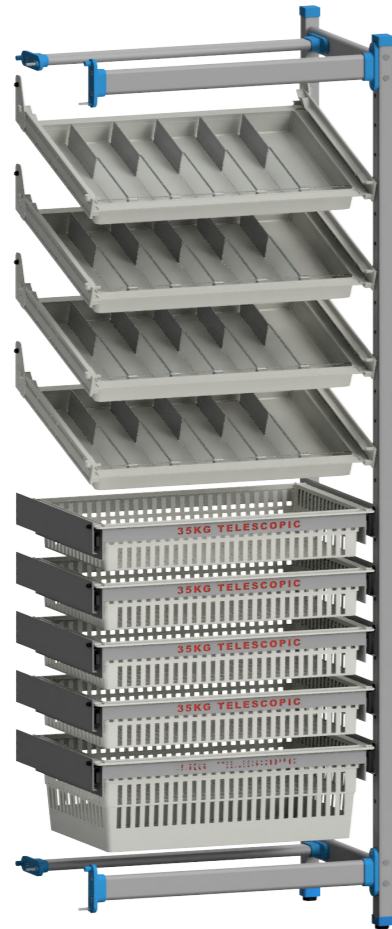

PHARMACY / MEDICATION
ABS BASKETS AND TRAYS
